PRIVACY POLICY IN THE CONTEXT OF
USE OF THE KATCHA APPLICATION

This privacy policy sets out the conditions under which we will process personal data
that we have collected about you or that you provide to us. Please read the following carefully to
understand our position and practices with respect to your personal data and how we will
manage them.
This is the Privacy Policy ("Privacy Policy") which governs how we, KATCHA ("
we "," us "or" our ") use the personal data (defined below) that we collect, receive
and store by means of: (i) the website www.katcha.io (the "Site"), (ii) the mobile application
downloadable from
the apple store and the android store and (iii) the website www.katcha-app.com.
We do not host any sites. Hosting is provided by third party service providers that we hire.
This means that the data you transmit to us or that we collect (including data
personal data, as defined below) - as described in this Privacy Policy -
are hosted with third-party service providers on servers they own or control. No matter
the physical location where these third-party service providers are located, their servers can be
located anywhere
in the world. Your data can even be replicated on multiple servers located in multiple countries.
This Privacy Policy has been updated to ensure compliance with the General Regulations on
data protection (General Data Protection Regulation: RGPD or General Data Protection
Regulation or GDPR), which entered into force on May 25, 2018 and affects residents of the EU and
Space
European Economic (EEA). Thus the processing designated in this Privacy Policy and
Protection of Privacy are supported by a specific legal basis.
This Data Protection Policy aims to inform you of the rights and freedoms that you can assert
with regard to our use of your personal data and describes the measures we take to
protect them.

What personal information do we collect?

We collect your information when you subscribe or register on the Katcha Application or website
Katcha. The Katcha company collects the Data that you voluntarily declare to it from a
collection on the Site, in particular when you register as a User. This information is
essential for creating your account. When you go to register you will be asked to enter:
your email, last name, first name, gender, marital status, date of birth, nationality, language spoken,
interests
personal or other similar information. We collect your transmitted data in order to be able to create
a
customer account which is specific to you and which will allow you to use our services and
participate in our events,
powered by the Katcha platform.
We also collect your information when you use our online services and participate in one of our
events, hosted by the Katcha Application or by our Service Provider. When you use our services, the
case
if applicable, you may be prompted to enter: your name, email, mailing address, phone number,
interests
personal or other similar information. We also collect personal information during a
event like, for example, your new connections, which parts of the event you liked the most and
other. This is to help improve your experience during the event with recommendations.

smart, optimized networking and gamification.

Why do we collect this information?

Provide and maintain the Services

By using the information we collect, we are able to provide the Services to you and
to honor the contract that binds you to our Service Provider. For example, we need to use your information to provide
the Katcha dashboard to our service provider which allows it to track your behavior, your activities and others
trends; to activate the community functions of the Services; and to provide you with all the information
useful during your stay with our Service Provider;
For community functions of the Services, we may use your information to help you find
other users and connect with them and to allow other users to find and connect with you
connect with you. For example, your account details allow other users to tell you
add as katch. When your email address is in another user's directory or in their
katch network on a connected service, we indicate to this user that you are also a user of our Services.

Improve, personalize and develop the Services

We also use the information we collect to maintain, protect and improve our services,
perform data analyzes and tests; conduct research and surveys and develop new
functions and new Services.

Communicate with you

We use your information when necessary to send you notifications relating to
Services and respond to you when you contact us. We also use your information for you
inform us of new functions or new activities or particular event that we believe may be
to interest you. We may use your email address to notify you of our maintenances and you
keep abreast of upcoming changes and improvements.

We may also use information collected from other technologies, such as "cookies"
to improve your experience and the overall quality of our services. For more information, see
our statement on the use of cookies.

How do we use your information?

We use the information collected to facilitate registration and your personal journey during your
stay or participation in a defined event, as well as for the creation of your profile. During your stay or
participation in a defined event, we use this information to provide you with recommendations in
real time such as: activities and preferences personalized to your profile. We can also use
this information for operational purposes such as: determining the maximum number of people registered
to an animation or event, the capacity of a room, a bus, reminders of the schedules if necessary and for

staff optimization. We also use the information collected to provide a record
of your route in your personal journal. We may also share this information with third parties
parties such as the event organizer and its partners to improve future events and you
offer content tailored to your preferences.

How do we protect your information?

All information going to our servers is encrypted via Secure Socket Layer (SSL). We store and process
your information on the servers hosted by OVH.

Third party integration

We may include third party products or services on our Application and web platform. These services
have separate and independent privacy policies. So we have no responsibility
for the content and activities of these sites. Nevertheless, we seek to protect the integrity of our
products and
we invite all relevant comments about these services.

Termination

You can contact us at any time to remove any personally identifiable information on
our databases and terminate your account. We undertake to process your request within
3 calendar days. You can contact us at postmaster@katcha-app.com or at the address at the end of
this document.

Modifications

From time to time we may update or change our Privacy Policy. We do not reduce your
rights under this policy without your express consent. We will also preserve the versions
earlier of this Privacy Policy in an archive for your review.
